- B. Assured Forwarding
- C. Expedited Forwarding
- D. Enhanced Forwarding

**Answer:** C

**QUESTION:** 61

A customer needs a network that can enable many users to request the same time-sensitive information simultaneously. Which technology would meet this need?

- A. Unicast
- B. Multicast
- C. Broadcast
- D. Webcast

**Answer:** B

**QUESTION:** 62

Internet Group Management Protocol (IGMP) is used by IP Multicast routers to learn about the existence of host group members on their directly attached subnets. Which statement about IGMP is true?

- A. The IP Multicast routers get this information by listening for IP hosts broadcasting IGMP queries and reporting their host group memberships.
- B. The IP Multicast routers get this information by recognizing the modified MAC address of a Multicast packet and adding that MAC address to the Multicast tree.
- C. The IP Multicast routers get this information by listening for Multicast Servers broadcasting IGMP queries and listening for IP hosts reporting their host group memberships.
- D. The IP Multicast routers get this information by broadcasting IGMP queries and listening for IP hosts reporting their host group memberships.

**Answer:** D

**QUESTION:** 63

A customer has an Ethernet Routing Switch (ERS) 8600 deployed as the core switch to provide connections to file servers. They have a file server that uses dual MAC addresses on two Network Interface Cards (NICs) and need to provide as much bandwidth to the server as possible. Which statement describes the process that will meet these requirements?

- A. Configure a DMLT between both NICs and the ERS 8600.
- B. Configure a MLT between both NICs and the ERS 8600.
- C. Configure static ARP entries on the ERS 8600 to contain both MAC addresses.
- D. Configure each port on the ERS 8600 as a separate link to each NIC.

**Answer:** D

**QUESTION:** 64

Multicast transmission can result in dropped packets or duplicate packets, and changes in network topology can generate out-of-sequence packets. What protocol can minimize these potential problems?

- A. UDP
- B. PGM
- C. IGMP
- D. QoS

**Answer:** B

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

## Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

## Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

## Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

## Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

## Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
