CTAL-TTA-001

ISTQB Certified Tester Advanced Level - Technical Test Analyst (CTAL-TTA-Syll2012)

ORDER FULL VERSION

A. A design review meeting
B. An architect translating requirements into design
C. Performing unit tests against design
D. A test log showing code coverage achieved

Answer: A

QUESTION: 59
Part 7 "Test Process & Incident Management"

You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.

The following issues are currently provided as a risk:

- lack of usability requirements

- security during on-line transactions

- perceived performance of the system and response time from the user interface

- a required availability of almost 100%.

As a technical test analyst, which documents would you typically create? 1 credit [K2]

A. Test plan, test design, test cases and test log
B. Test plan, test log, test design and test summary report
C. Test script, test log, incident report and test design
D. Incident report, test item transmittal report, test cases and test procedure

Answer: C

QUESTION: 60
Part 7 "Test Process & Incident Management"

> You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.
>
> The following issues are currently provided as a risk:
>
> - lack of usability requirements
>
> - security during on-line transactions
>
> - perceived performance of the system and response time from the user interface
>
> - a required availability of almost 100%.

As a technical test analyst, you have found out during test case design that the design document is incomplete. Which is an example of a good way to communicate that problem in an email? 1 credit [K2]

A. E-mail: "Until I have received an updated version of the design document, I will not do any work on the test design."
B. E-mail: "When will it be possible to receive the missing information? Test design is impeded by a lack of clarity here."
C. E-mail: "Here we go again. The developer gave us incomplete and ambiguous design specifications. Typical."
D. Do not communicate the problem, just log the delaying effect of the information problem and be ready to explain the delays to the test manager later.

Answer: B

QUESTION: 61
Part 7 "Test Process & Incident Management"

> You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.
>
> The following issues are currently provided as a risk:
>
> - lack of usability requirements
>
> - security during on-line transactions
>
> - perceived performance of the system and response time from the user interface
>
> - a required availability of almost 100%.

As a technical test analyst, you are involved in a risk analysis session using the Failure Mode and Effect Analysis technique. You are calculating risk priorities. Which of the following are the major factors in this exercise? 1 credit [K2]

A. Severity and priority
B. Functionality, reliability, usability, maintainability, efficiency and portability
C. Likelihood and impact
D. Financial damage, frequency of use and external visibility

Answer: C

QUESTION: 62
Part 7 "Test Process & Incident Management"

You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.

The following issues are currently provided as a risk:

- lack of usability requirements

- security during on-line transactions

- perceived performance of the system and response time from the user interface

- a required availability of almost 100%.

In which of the following test documents would you expect to find the preconditions to start executing a set of test cases? 1 credit [K2]

A. Level test plan
B. Test procedure specification
C. Test design specification
D. Master test plan

Answer: B

QUESTION: 63
Part 7 "Test Process & Incident Management"

You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.

The following issues are currently provided as a risk:

- lack of usability requirements

- security during on-line transactions

- perceived performance of the system and response time from the user interface

- a required availability of almost 100%.

Defects are discovered through test analysis and design because… 1 credit [K2]

A. the tasks involve extracting information from the test basis
B. developers are involved in writing test cases
C. the cost of fixing a defect will increase if found later on
D. the author of the test basis will have made errors

Answer: A

QUESTION: 64
Part 7 "Test Process & Incident Management"

You are asked to provide practical and pragmatic testing solution for a commercial system where the main user interface is via the World Wide Web. It is critical that the company's existing good name and market profile are not damaged in any way. Time to market is not an issue when appropriate testing solutions are identified to mitigate business risks.

The following issues are currently provided as a risk:

- lack of usability requirements

- security during on-line transactions

- perceived performance of the system and response time from the user interface

- a required availability of almost 100%.

The development manager asks you to identify suitable test coverage entry criteria for a component test. Which TWO of the following would you recommend as appropriate for entry criteria to a component testing phase? 2 credits [K3]

A. 100% statement coverage
B. No critical outstanding defects
C. Test log available
D. Code review completed
E. Static analysis shows no major violations

Answer: D, E

QUESTION: 65

A test team is keeping logs of the incidents that they observe. They use a commonly-available word processor to write the incident reports in individual file, which are held in shared storage. They track the incidents along with some incident details, in a spreadsheet.

Identify the most significant risk introduced by this approach to incident management. 3 credits [K4]

A. Excel list may not be insynchronizationwith Word documents
B. Low level of usability
C. Spreadsheet/text files may not be complete
D. Does not map to IEEE 1044

Answer: A

SAMPLE QUESTIONS

These questions are for demo purpose only. **Full version** *is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
