QUESTION: 90

A customer has requested your help to find out where a Hitachi Unified Storage (HUS) system's FC port 0A connects into their SAN. How can you find this information?

- A. Use the HUS Web tool to report the switch WWN and port number.
- B. Use Device Manager to determine where the HUS port is connected to.
- C. Use the switch name server to find the HUS WWPN.
- D. Use the SNM2 Advanced Settings to determine the WWPN of the switch port.

Answer: C

QUESTION: 91

A customer will be implementing a Hitachi Unified Storage File Module in a switch-less two-node cluster. What needs to be used for the cluster interconnect?

- A. Two10Gbps Ethernet connections with LC connectors
- B. Two10Gbps Ethernet connections with XFP connectors
- C. Two1Gbps Ethernet connections with RJ-45 connectors
- D. Two8Gbps FC connections with LC connectors

Answer: B

QUESTION: 92

A customer has deployed TrueCopy Extended Distance on their Hitachi Unified Storage systems. They would like to be alerted when their RPO exceeds the business requirement. Which product would you recommend?

- A. Hitachi Replication Manager
- B. Hitachi Command Director
- C. Business Continuity Manager
- D. Hitachi Universal Replicator

Answer: A

QUESTION: 93

Which feature of the Hitachi Unified Storage model 150 distinguishes it from models 110 and 130?

- A. support for I/O modules
- B. support for 16 FC host ports

- C. support for 32GB of cache
- D. support for 4U density trays

Answer: A

QUESTION: 94

What are two ways to restrict access to storage through a Fabric? (Choose two.)

- A. Use SNMP
- B. Use zoning
- C. Use Host Group security
- D. Useport security on the switch(es)

Answer: B, C

QUESTION: 95

Which two tasks can be performed online on a Hitachi Unified Storage system? (Choose two.)

- A. replacing a SFP FC Host Connector
- B. removing a Drive Box
- C. upgrading a Flash Memory
- D. replacing a Controller Unit

Answer: A, D

QUESTION: 96

A customer wants to migrate Hitachi AMS2300 data to a newly acquired Hitachi Unified Storage (HUS) system. Which statement about the migration is correct?

- A. Modular Volume Migration can be used.
- B. TrueCopy or TrueCopy Extended Distance can be used.
- C. The Data Migration license key is required on both sides.
- D. The Data Migration license key is only required on the HUS.

Answer: B

QUESTION: 97

You have to replace a Cache Backup Battery online on a Hitachi Unified Storage system. Which two statements are correct? (Choose two.)

- A. When the power is turned off during the replacement, user data on the cache that has not been written will be backed up to flash memory.
- B. You should not perform any replacement while the green READY LED on the front of the Controller Box is blinking at high speed.
- C. You should only perform the replacement while the green READY LED on the front of the Controller Box is blinking at high speed.
- D. You must complete the replacement within a certain time frame.

Answer: B, D

QUESTION: 98

You are connecting a Hitachi Unified Storage system to a FC SAN. Which topology setting should you select?

- A. Loop
- B. Fabric
- C. Point-to-Point
- D. Fabric Point-to-Point

Answer: C

QUESTION: 99

You are using the Change Volume Capacity function of Storage Navigator Modular 2 (SNM2) to manage a Hitachi Unified Storage (HUS) system. Hitachi Dynamic Provisioning is not used. Which two operations can be performed? (Choose two.)

- A. Add additional LUs to an existing LUN.
- B. Release the first LU from a unified LUN.
- C. Grow a LUN by adding free space from any RAID Group.
- D. Shrink a LUN by releasing space back to the RAID Group.

Answer: A, D

QUESTION: 100

A customer wants to install an Emulex HBA in a Windows 2008 server for connection to a Hitachi Unified Storage system. Where would you determine the validity of this configuration?

- A. Microsoft Web site
- B. HDS Hitachi Unified Storage maintenance manual

- C. HiFire on HDS intranet/extranet
- D. Storage Navigator Modular 2 User's Guide

Answer: C

QUESTION: 101

Which three parameters must be set when adding a Cache Partition on a Hitachi Unified Storage system? (Choose three.)

- A. Controller
- B. Raid Group
- C. Cache Size
- D. Segment Size
- E. Logical Unit

Answer: A, C, D

QUESTION: 102

What describes the characteristics of external backup solutions supported by the Hitachi Unified Storage System (HUS) File Module option?

- A. The HUS File Module uses file system snapshot technology.
- B. The HUS File Module only backs up to direct attached tape drives.
- C. The HUS File Module relies on the User Datagram Protocol (UDP) with CRC enabled.
- D. The HUS File Module uses Network Data Management Protocol (NDMP).

Answer: D

QUESTION: 103

What allows firmware to be updated non-disruptively on the Hitachi Unified Storage systems?

- A. Firmware updates are performed in less than the host I/O timeout value.
- B. While one controller is rebooting, the other handles all host operations.
- C. Host connectivity to both controllers established using multi-pathing software.
- D. Firmware updates only affect the first five drives and no controller reboot is required.

Answer: B

QUESTION: 104

A storage administrator would like to connect 10 hosts into the same FC ports of a Hitachi Unified Storage system. They are concerned that one host with high I/Os will impact the other hosts on the same FC ports. Which HBA parameter should be set to limit the number of outstanding I/Os on each host?

- A. queue depth
- B. command length
- C. command depth
- D. queue length

Answer: A

QUESTION: 105

A customer would like to add the File Module option to their Hitachi Unified Storage (HUS) system to provide files services. Which three types of connectivity are required from the File Module? (Choose three.)

- A. FC to HUS
- B. IP to SMU
- C. FC to Servers
- D. IP to Servers
- E. FC to SMU

Answer: A, B, D

QUESTION: 106

What are two characteristics of the Hitachi Unified Storage (HUS) controllers? (Choose two.)

- A. Mixing FC and iSCSI front-end ports is allowed on all models.
- B. The FC front-end ports automatically sense 1, 2, 4 and 8 Gbps.
- C. The FC front-end ports offer improved sequential I/O performance.
- D. HUS models 110 and 130 are active/passive.

Answer: A, C

QUESTION: 107

A customer wants to migrate data from existing modular storage arrays to a newly acquired Hitachi Unified Storage system. To prepare for the storage migration, you have been asked to collect operation data that encompasses multiple storage systems and their attached hosts. Which tool would you use?

- A. auperfmon
- B. raidcom
- C. SE Console
- D. HiPAST

Answer: C

QUESTION: 108

What are two characteristics of the active/active architecture on the Hitachi Unified Storage (HUS) systems? (Choose two.)

- A. Multiple ports from the same controller are required to support the active/active feature.
- B. Firmware upgrades are non-disruptive even with one path from a host.
- C. Controller workload balancing is managed by the HUS system.
- D. HDLM needs to be used to benefit from the active/active feature.

Answer: B, C

QUESTION: 109

A customer wants to migrate their data from an existing AMS2500 to a newly acquired Hitachi Unified Storage (HUS) system using TrueCopy Extended Distance (TCE) software. Which set of components is required on the HUS to configure TCE?

- A. Journal Volumes and a TCE license
- B. an HDP license and 50% more cache capacity
- C. an HDP License and a TCE license
- D. a Cache Memory adapter and a TCE license

Answer: C

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
