Checkpoint

156-915.80.10

Certified Security Expert - R80.10 (CCSE)

Question: 56

John detected high load on sync interface.

Which is most recommended solution?

- A. For short connections like http service C delay sync for 2 seconds
- B. Add a second interface to handle sync traffic
- C. For short connections like http service C do not sync
- D. For short connections like icmp service C delay sync for 2 seconds

Answer: A

Question: 57

What is the SOLR database for?

- A. Used for full text search and enables powerful matching capabilities
- B. Writes data to the database and full text search
- C. Serves GUI responsible to transfer request to the DLEserver
- D. Enables powerful matching capabilities and writes data to the database

Answer: A

Question: 58

What is a feature that enables VPN connections to successfully maintain a private and secure VPN session without employing Stateful Inspection?

- A. Stateful Mode
- B. VPN Routing Mode
- C. Wire Mode
- D. Stateless Mode

Answer: C

Explanation:

Wire Mode is a VPN-1 NGX feature that enables VPN connections to successfully fail over, bypassing Security Gateway enforcement. This improves performance and reduces downtime. Based on a trusted source and destination, Wire Mode uses internal interfaces and VPN Communities to maintain a private and secure VPN session, without employing Stateful Inspection. Since Stateful Inspection no longer takes

place, dynamic-routing protocols that do not survive state verification in non-Wire Mode configurations can now be deployed. The VPN connection is no different from any other connections along a dedicated wire, thus the meaning of "Wire Mode".

Question: 59

On R80.10 the IPS Blade is managed by:

- A. Threat Protection policy
- B. Anti-Bot Blade
- C. Threat Prevention policy
- D. Layers on Firewall policy

Answer: A

Explanation:

Reference: https://www.checkpoint.com/downloads/product-related/r80.10-mgmt-architecture-overview.pdf very top of last page.

Question: 60

Which packet info is ignored with Session Rate Acceleration?

- A. source port ranges
- B. source ip
- C. source port
- D. same info from Packet Acceleration is used

Answer: C

Explanation:

Reference: http://trlj.blogspot.com/2015/10/check-point-acceleration.html

Question: 61

What is the purpose of Priority Delta in VRRP?

- A. When a box is up, Effective Priority = Priority + Priority Delta
- B. When an Interface is up, Effective Priority = Priority + Priority Delta
- C. When an Interface fail, Effective Priority = Priority C Priority Delta
- D. When a box fail, Effective Priority = Priority C Priority Delta

Answer: C

Explanation:

Each instance of VRRP running on a supported interface may monitor the link state of other interfaces. The monitored interfaces do not have to be running VRRP. If a monitored interface loses its link state, then VRRP will decrement its priority over a VRID by the specified delta value and then will send out a new VRRP HELLO packet. If the new effective priority is less than the priority a backup platform has, then the backup platform will beging to send out its own HELLO packet. Once the master sees this packet with a priority greater than its own, then it releases the VIP.

Question: 62

What is the purpose of a SmartEvent Correlation Unit?

- A. The SmartEvent Correlation Unit is designed to check the connection reliability from SmartConsole to the SmartEvent Server
- B. The SmartEvent Correlation Unitâs task it to assign severity levels to the identified events.
- C. The Correlation unit role is to evaluate logs from the log server component to identify patterns/threats and convert them to events.
- D. The SmartEvent Correlation Unit is designed to check the availability of the SmartReporter Server

Answer: C

Question: 63

The CDT utility supports which of the following?

- A. Major version upgrades to R77.30
- B. Only Jumbo HFAas and hotfixes
- C. Only major version upgrades to R80.10
- D. All upgrades

Answer: D

Explanation:

The Central Deployment Tool (CDT) is a utility that runs on an R77 / R77.X / R80 / R80.10 Security Management Server / Multi-Domain Security Management Server (running Gaia OS).

It allows the administrator to automatically install CPUSE Offline packages (Hotfixes, Jumbo Hotfix Accumulators (Bundles), Upgrade to a Minor Version, Upgrade to a Major Version) on multiple managed Security Gateways and Cluster Members at the same time.

Question: 64

The Firewall kernel is replicated multiple times, therefore:

- A. The Firewall kernel only touches the packet if the connection is accelerated
- B. The Firewall can run different policies per core
- C. The Firewall kernel is replicated only with new connections and deletes itself once the connection times out
- D. The Firewall can run the same policy on all cores

Answer: D

Explanation:

On a Security Gateway with CoreXL enabled, the Firewall kernel is replicated multiple times. Each replicated copy, or instance, runs on one processing core. These instances handle traffic concurrently, and each instance is a complete and independent inspection kernel. When CoreXL is enabled, all the kernel instances in the Security Gateway process traffic through the same interfaces and apply the same security policy.

Question: 65

Sticky Decision Function (SDF) is required to prevent which of the following? Assume you set up an Active-Active cluster.

- A. Symmetric routing
- B. Failovers
- C. Asymmetric routing
- D. Anti-Spoofing

Answer: C

Question: 66

Which is not a blade option when configuring SmartEvent?

- A. Correlation Unit
- B. SmartEvent Unit
- C. SmartEvent Server
- D. Log Server

Answer: B

Explanation:

On the Management tab, enable these Software Blades:

- Logging & Status
- SmartEvent Server
- SmartEvent Correlation Unit

Question: 67

What command would show the API server status?

A. cpm status

B. api restart

C. api status

D. show api status

Answer: C

Explanation:

SAMPLE QUESTIONS

These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

<u>Actual Exam Questions</u>: Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.

Exam Dumps: Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.

<u>Practice Tests</u>: Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

<u>Guaranteed Success</u>: Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.

<u>Updated Content:</u> Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.

<u>Technical Support</u>: Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.
