Question: 108

All Avaya Aura System Manager redundancy options all can use two servers. Although a server is designed as primary and another server is designed as secondary, it is possible to keep them in the active state at the same time.

In what conditions or deployment mode, you can make two servers running at the same time?

- A. Geo-redundancy is deployed
- B. Run in "Split WAN" mode
- C. Run in high availability mode of deployment
- D. Large deployment model with load balancing

Answer: B

Question: 109

Customers need Microsoft Exchange as a back-end voice message. Customers do not require solutions for geographic redundancy, but require hardware redundancy. The customer has 8,000 users. Assuming that there are 60 users per port, at least how many Avaya Aura Messaging Application Servers will be required to meet the requirements?

- A. 2 Application Servers
- B. 3 Application Servers
- C. 4 Application Servers
- D. 5 Application Servers

Answer: B

Question: 110

Avaya Aura Communication Manager (CM) can be used as part of the application layer (feature server mode), or access layer (evolution serve mode) or access unit. The traditional PBX can provide four functions (routing, media control, device registration, user function), Avaya Aura session Manager can also provide these features.

When the CM is deployed as a feature server, which of the following features is provided by the Session Manager?

- A. Routing and media control
- B. Routing and user functions
- C. Routing and device registration
- D. Media control and device registration
- E. Media control and user functions
- F. Device registration and user functions

Answer: C

Question: 111

How many SIP devices can be supported by one Avaya Aura Session Manager 7.0?

- A. 100,000
- B. 200,000
- C. 250,000
- D. 350,000

E. 400.000

Answer: D

Question: 112

You are designing a scenario that requires Avaya Aura and Microsoft systems to share internal status. Which of the following products must be included in your program? (Please Select Three)

- A. Avaya Aura System Manager
- B. Avaya Aura Application Enablement Services (AES)
- C. Avaya Aura Presence Services
- D. Microsoft OCS/Lync
- E. Avaya Agile Communication Environment (ACE)
- F. Avaya Session Border Controller for Enterprise

Answer: ACD

Question: 113

Which of the following are restrictions on the Avaya Aura 7 Appliance Virtualization Platform (AVP) running on S8300?

- A. Flexible virtualization is not allowed
- B. Can only be deployed as Embedded Survivable Remote
- C. Can only run Presence Services, Communication Manager
- D. Can only be deployed as Embedded Main

Answer: A

Question: 114

Why does the Avaya Aura Presence Service Connector snap-in be deployed on a common EDP or cluster?

- A. To provide information about the status of the connection to the EDP application development interface
- B. To provide information about the status of the unique EDP
- C. To provide an interface to connect to the Session Manager
- D. To provide status information of Avaya Communicator for Windows

Answer: A

Question: 115

When AES accesses Communication Manager, what about the Communication Manager?

- A. Communication Manager must be run as an Evolution Server
- B. Communication Manager must be run as Feature Server
- C. Communication Manager must be running on Avaya Aura Core
- D. Communication Manager must be running in remote self-surviving mode

Answer: A

Question: 116

The customer has already installed the Engagement Development Platform (EDP) to support Presence. They decided to add WebRTC snap-in to support the use of company web pages for calls. They also need Engagement Designer snap-in to develop their own applications.

What is the minimum configuration to support this new snap-in?

- A. Install two new EDPs for WebRTC and Engagement Designer
- B. Install a new snap-ins on an existing EDP
- C. Install Engagement designer on existing EDP and add new EDP for WebRTC
- D. Install a new EDP for WebRTC and Engagement Designer

Answer: D

Question: 117

Avaya has established a branch in emerging markets in South Asia, where the general agent is negotiating with a businessman who has a certain social relationship and can enhance Avaya's market share in the country. Without the approval of Avaya, the merchant proposed that the general agent made the payment of \$ 1,000 USD to him in the name of Avaya.

Is this action appropriate?

- A. Appropriate. Because it can be through the appropriate "bribery" to promote the conduct of things, and in many countries such acts do not violate the bribery law
- B. Inappropriate. This is a violation of Avaya's policy because it is done without the consent of Avaya
- C. Not appropriate. The general agent violates Avaya's anti-bribery policy

Answer: C

Question: 118

In Mourito local government project, Avaya cooperate with a local general agent. After winning the project, the product is also shipped from abroad to Mourito's customs. This time it need a paperwork issued by the customsto let the goods pass, but you need to wait for 7-14 days for this paperwork generally. The general agent think the project is very urgent, so he self-assertion paid 150 dollars to a senior customs officer, in advance to get the instrument. The general agent thinks that this was a very common and legitimate act in the area.

Does the general agent violate any rules and regulations?

- A. No. It is conventional that the general agent paid this payment in Mourito, without violating the law of God.
- B. Yes. The general agent violates Avaya's business principles: never pay any form of "Commission"

Answer: B

Question: 119

Avaya Aura Conferencing 8 supports deployment in VMware environment. What is the correct description on the OVA template?

- A. OVA templates are available for small, medium and large deployments
- B. OVA templates are only available for medium and large deployments
- C. OVA templates are only available for small and medium deployments
- D. OVA templates are only available for Turnkey deployment

Answer: B

Question: 120

AAMS has a variety of different licenses, for the CM AAMS "instance" license (each AAMS server needs one), there are "channel" permission (each bar needs a link).

What are the ways in which these licenses are available?

- A. The power suite license contains the "instance and system" license, and only the "channel" license needs to be purchased separately
- B. The "DSP channel" license is included in the Power suite license at a ratio of 1:10 and only the "instance and system" license needs to be purchased separately
- C. "instance and system" permission, as well as "channel" license need to be purchased separately
- D. "DSP channel" license and "instance and system" license, included in the Power suite license at a ratio of 1:10

Answer: C

Question: 121

Avaya set up a branch in South Asia's emerging markets. The company recruited partners engaged in promoting government markets and selling products and services. During the contact process, the partners gave the two government officials \$230 USD each. Although these amounts did not guarantee government projects, they establish a relationship in this market for Avaya.

Is this partner potentially violating the law and Avaya's anti-bribery policy?

- A. No violation. Because the partner did not bring the Avaya the ensured business, and the amount is indeed very little
- B. Violation. Because the law and Avaya's anti-bribery law prohibits that in the process of business, do the improper action through any way to foreign government officials.

Answer: B

Question: 122

Your customers are seeking desktop telephones for their administrative staff. They are interested in supporting rich audio and video collaboration features.

Would you recommend?

- A. 9641
- B. H175
- C. E159
- D. 9621

Answer: B

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
