**QUESTION: 144**
A small business owner needs to establish a secure logon to the company database server to troubleshoot an issue while on vacation. Which of the following will allow secure access to manage the server from a remote location?

A. SFTP  
B. Telnet  
C. SSH  
D. RSH

**Answer:** D

**QUESTION: 145**
Which of the following cloud services would MOST likely be selected by a software development company that needs a cloud in which to develop software and does not have infrastructure requirements?

A. PaaS  
B. SaaS  
C. IaaS  
D. XaaS

**Answer:** A

**QUESTION: 146**
Which of the following contributes to increased read access performance on a fibre channel SAN?

A. Zoning  
B. Clustered storage  
C. Caching  
D. QoS

**Answer:** C

**QUESTION: 147**
A technician needs to configure a virtual NIC on a Class A IP address network. Which
of the following is the default subnet mask for this network?

A. /8  
B. /16  
C. /24  
D. /28  

**Answer:** A

**Reference:**
https://www.pantz.org/software/tcpip/subnetchart.html

**QUESTION:** 148  
Which of the following typically provides a FASTER access speed in a network storage implementation?

A. NFS  
B. SAN  
C. DAS  
D. SATA  

**Answer:** C

**QUESTION:** 149  
Internal users are reporting high latency when connecting to external servers in the cloud. Which of the following should a network administrator optimize?

A. WAN  
B. SAN  
C. VLAN  
D. LAN  

**Answer:** A

**QUESTION:** 150  
Which of the following is the BEST choice for a clustered host interconnect?
A. Infiniband
B. 1Gb Ethernet
C. 10Gb Ethernet
D. Fibre Channel

Answer: D

**QUESTION: 151**
The administrator of virtual infrastructure needs to provision block storage for a virtual machine on which a business critical application will be installed. Considering performance, which of the following describes how the administrator should attach the storage to the VM?

A. Using NFS
B. Using CIFS
C. Using IPv6
D. Using iSCSI

Answer: D

**Reference:**
http://www.techrepublic.com/blog/the-enterprise-cloud/block-level-storage-vs-file-level-storage-comparison/

**QUESTION: 152**
Which of the following are types of storage media? (Select two.)

A. SCSI
B. SSD
C. Tape
D. SATA
E. USB

Answer: B, C

**QUESTION: 153**
A company that provides a cloud-based storage solution for consumers needs to ensure that users’ data is encrypted while it is stored on its premises. Which of the following
An administrator is tasked with the virtualization of all database management applications. Which of the following should the administrator do FIRST to ensure that database performance will be optimal?

A. SSL
B. HMAC
C. SHA
D. RC4

**Answer:** A
A. Follow the recommendations of the database management application vendor.
B. Design a physical to virtual migration plan of the application.
C. Adhere to the recommendations of the virtualization software vendor.
D. Develop a migration plan to the new environment, ensuring maximum uptime.

Answer: C

**QUESTION: 157**
An organization is converting a physical SQL server into a virtual server. The SQL database has been in use for several years and contains critical data for the organization. Which of the following conversion methods would be MOST appropriate?

A. Automated offline
B. Manual offline
C. Manual online
D. Automated online

Answer: D

**QUESTION: 158**
Exhibit

Exhibit
PART 1

Instruction: Click on each device to review more information of DNS, Firewall1, Firewall2, Router1, Router2, VPN and Orchestration Server.

Exhibit
Instruction: Only select a maximum of TWO options from the multiple choice question.

A. Deploy a Replica of the Database Server in the Cloud Provider
B. Update the PSK (Pre-shared key in Router2)
C. Update the A record on the DNS from 2.2.2.2 to 1.1.1.1
D. Promote deny All to allow All in Firewall1 and Firewall2
E. Change the Address Space on Router2
F. Change internal IP Address of Router1
G. Reverse the Weight property in the two CNAME records on the DNS
H. Add the Application Server at on-premises to the Load Balancer

Answer: A, H
