Answer:
You use opportunities with business process flows in Dynamics 365.

You do not have insight into the amount of time spent per process and when the last stage became active.

You need to create views and charts that give you this insight and that allow you to track by the owner of the opportunity.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

1. Create a chart on the business process flow entity and use the new view to include the necessary fields.
2. Create a chart on the opportunity entity and include the owner field.
3. Create a view of the business process flow entity and include duration and Active Stage Started On.
