Microsoft

MD-102

Microsoft 365 Certified: Endpoint Administrator Associate

Question: 78

You have a Microsoft 365 subscription that uses Microsoft Intune Suite.

You use Microsoft Intune to manage devices.

You use Windows Autopilot to deploy Windows 11 to devices.

A support engineer reports that when a deployment fails, they cannot collect deployment logs from failed device.

You need to ensure that when a deployment fails, the deployment logs can be collected.

What should you configure?

A. the automatic enrollment settings
B. the Windows Autopilot deployment profile
C. the enrollment status page (ESP) profile
D. the device configuration profile

Answer: B

Question: 79

You have a Microsoft 365 E5 subscription that contains a user named User1 and uses Microsoft Intune Suite.

You use Microsoft Intune to manage devices.

You have a device named Device1 that is enrolled in Intune.

You need to ensure that User1 can use Remote Help from the Intune admin center for Device1.

Which three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Deploy the Remote Help app to Device1.
B. Assign the Help Desk Operator role to User1.
C. Assign the Intune Administrator role to User1.
D. Assign a Microsoft 365 E5 license to User1.
E. Rerun device onboarding on Device1.
F. Assign the Remote Help add-on license to User1.

Answer: A,B,F

Question: 80

You have a Windows 11 capable device named Device1 that runs the 64-bit version of Windows 10 Enterprise and has Microsoft Office 2019 installed.

You have the Windows 11 Enterprise images shown in the following table.

Name	Platform	Description
Image1	x64	Custom Windows 11 image that has Office 2021 installed
Image2	x64	Default Windows 11 image created by Microsoft

Which images can be used to perform an in-place upgrade of Device1?

A. image1 only
B. lmage2only
C. Image1 and Image2

Answer: B

Question: 81

HOTSPOT

Your network contains an on-premises Active Directory Domain Services {AD DS) domain that syncs with an Azure AD tenant by using Azure AD Connect.

You use Microsoft Intune and Configuration Manager to manage devices.

You need to recommend a deployment plan for new Windows 11 devices.

The solution must meet the following requirements:

â¢ Devices for the marketing department must be joined to the AD DS domain only. The IT department will install complex applications on the devices at build time, before giving the devices to the marketing department users.

â¢ Devices for The sales department must be Azure AD joined. The devices will be shipped directly from the manufacturer to The homes of the sales department users.

â¢ Administrative effort must be minimized.

Which deployment method should you recommend for each department? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Sales: [Configuration Manager ▼]
    Configuration Manager
    Windows Autopilot with automatic registration
    Windows Autopilot with manual
    Windows Autopilot with OEM registration

Marketing: [▼]
    Configuration Manager
    Windows Autopilot with automatic registration
    Windows Autopilot with manual registration
    Windows Autopilot with OEM registration

Answer: B

Question: 82

You have a Microsoft Deployment Toolkit (MDT) deployment share named DS1.

in the Out-of-Box Drivers node, you create folders that contain drivers for different hardware models.

You need to configure the Inject Drivers MDT task to use PnP detection to install the drivers for one of the hardware models.

What should you do first?

A. Import an OS package.
B. Create a selection profile.
C. Add a Gather task to the task sequence.
D. Add a Validate task to the task sequence.

Answer: B

Question: 83

You have an on-premises server named Server! that hosts a Microsoft Deployment Toolkit (MDT) deployment share named MDT1. You need to ensure that MDT1 supports multicast deployments.

What should you install on Server1?

A. Multipath I/O (MPIO)
B. Multipoint Connector
C. Windows Deployment Services (WDS)
D. Windows Server Update Services (WSUS)

Answer: C

Question: 84

Your company standardizes on Windows 10 Enterprise for all users.

Some users purchase their own computer from a retail store. The computers run Windows 10 Pro.

You need to recommend a solution to upgrade the computers to Windows 10 Enterprise, join the computers to Azure AD, and install several Microsoft Store apps.

The solution must meet the following requirements:

â¢ Ensure that any applications installed by the users are retained.

â¢ Minimize user intervention.

What is the best recommendation to achieve the goal? More than one answer choice may achieve the goal. Select the BEST answer.

A. Windows Autopilot
B. Microsoft Deployment Toolkit (MDT)
C. a Windows Configuration Designer provisioning package
D. Windows Deployment Services (WDS)

Answer: A

Question: 85

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you modify the User settings and the Device settings.

Does this meet the goal?

A. Yes
B. No

Answer: B

Question: 86

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you configure automatic mobile device management (MDM)

enrollment. From the Microsoft Intune admin center, you create and assign a device restrictions profile.

Does this meet the goal?

A. Yes
B. No

Answer: B

Question: 87

Your company has an Azure AD tenant named contoso.com that contains several Windows 10 devices.

When you join new Windows 10 devices to contoso.com, users are prompted to set up a four-digit pin.

You need to ensure that the users are prompted to set up a six-digit pin when they join the Windows 10 devices to contoso.com.

Solution: From the Microsoft Entra admin center, you configure automatic mobile device management (MDM) enrollment. From the Microsoft Intune admin center, you configure the Windows Hello for Business enrollment options.

Does this meet the goal?

A. Yes
B. No

Answer: B

Question: 88

HOTSPOT

You have an Azure AD tenant that contains the users shown in the following table.

Name	Multi-factor authentication (MFA) status
User1	Disabled
User2	Enabled

You have the devices shown in the following table.

Name	Platform
Device1	Android
Device2	iOS

You have a Conditional Access policy named CAPolicy1 that has the following settings:

â¢ Assignments

o Users or workload identities: User 1. User1

o Cloud apps or actions: Office 365 Exchange Online o Conditions: Device platforms: Windows, iOS

â¢ Access controls

o Grant Require multi-factor authentication

You have a Conditional Access policy named CAPolicy2 that has the following settings:

Assignments

o Users or workload identities: Used, User2

o Cloud apps or actions: Office 365 Exch

o Conditions

â Device platforms: Android, iOS

â Filter for devices

â Device matching the rule: Exclude filtered devices from policy

â Rule syntax: device. displayName- contains "1"

â Access controls

â Grant Block access

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Answer Area

Statements	Yes	No
If User1 connects to Microsoft Exchange Online from Device1, the user is prompted for MFA.	○	○
If User2 connects to Microsoft Exchange Online from Device1, the user is prompted for MFA.	○	○
User2 can access Microsoft Exchange Online from Device2.	○	○

•

 Answer: B

Explanation:

Question: 89

HOTSPOT

You have a Microsoft 365 subscription that contains the devices shown in the following table.

Name	Platform
Device1	Windows 10
Device2	iOS

You plan to enroll the devices in Microsoft Intune.

How often will the compliance policy check-ins run after each device is enrolled in Intune? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Device1:

Every 15 minutes for one hour, and then every eight hours
Every five minutes for 15 minutes, then every 15 minutes for two hours, and then every eight hours
Every three minutes for 15 minutes, then every 15 minutes for two hours, and then every eight hours

Device2:

Every 15 minutes for one hour, and then every eight hours
Every five minutes for 15 minutes, then every 15 minutes for two hours, and then every eight hours
Every three minutes for 15 minutes, then every 15 minutes for two hours, and then every eight hours

•

Answer: B

Explanation:

Box 1: Every three minutes for 15 minutes, then every 15 minutes for two hours, and then around every eight hours

If devices recently enroll, then the compliance, non-compliance, and configuration check-in runs more frequently.

The check-ins are estimated at:

Windows 10: Every 3 minutes for 15 minutes, then every 15 minutes for 2 hours, and then around every 8 hours

Box 2: Every 15 minutes for one hour, and then every eight hours

iOS/iPadOS: Every 15 minutes for 1 hour, and then around every 8 hours

Question: 90

You have a Microsoft 365 E5 subscription that contains 500 macOS devices enrolled in Microsoft Intune.

You need to ensure that you can apply Microsoft Defender for Endpoint antivirus policies to the macOS devices. The solution must minimize administrative effort.

What should you do?

A. From the Microsoft Endpoint Manager admin center, create a configuration profile.
B. From the Microsoft Endpoint Manager admin center, create a security baseline.
C. Onboard the macOS devices to the Microsoft 365 compliance center.
D. Install Defender for Endpoint on the macOS devices.

Answer: D

Explanation:

Just install, and use Defender for Endpoint on Mac.

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.

Exam Dumps: Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.

Practice Tests: Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success: Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.

Updated Content: Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.

Technical Support: Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.
