Question #96

Scrum can easily be scaled for effective use in large projects with multiple small teams working on the project. Which of the following facilitates coordination among scrum teams?

- A. Scrum of Scrums Meeting
- B. Daily Standup Meeting
- C. Sprint Review Meeting
- D. Sprint Planning Meeting

Answer: A

There are a lot of people who say "Scrum can be used to improve the team productivity but is not scalable". In fact, it can easily be scaled for effective use in large projects. Multiple Scrum Teams can be formed to work on the project where the Scrum Team size exceeds ten people. The Convene Scrum of Scrums process facilitates coordination among the Scrum Teams, enabling effective implementation in larger projects. Multiple Scrum Teams work in parallel in large projects, making it necessary to synchronize and facilitate the flow of information and enhance communication. The Convene Scrum of Scrums is the process ensuring this synchronization. The various Scrum Teams are represented in this meeting and the objectives are to provide updates about progress, discuss challenges faced during the project, and coordinate activities.
