QUESTION: 125

The Net-Net 4000 supports _____ VLANs per physical interface.

- A. 1024
- B. 6000
- C. 999
- D. 4095

Answer: A

QUESTION: 126

Which one of the following statements about H.323 networks is FALSE?

- A. The collection of all terminals, gateways, and MCU managed by a single gatekeeper is known as an Autonomous System (AS).
- B. Gateways are not mandatory in an H.323 network.
- C. Gatekeepers are not mandatory in an H.323 network.
- D. Gateways translate call set-up messages and convert media formats.

Answer: A

QUESTION: 127

Which one of the four statements below about Session Initiation Protocol (SIP) is FALSE?

- A. SIP provides for resource reservation.
- B. SIP works with both IPv4 and IPv6.
- C. SIP can run on top of either UDP or TCP as the transport protocol.
- D. SIP can be used to invite participants to an already existing session.

Answer: A

QUESTION: 128

In a Net-Net 4000 high availability (HA) architecture, the standby Net-Net 4000 sends ARP requests using which one of the following?

- A. The utility IP address and its hard coded MAC address.
- B. The IP address and its hard coded MAC address.
- C. The virtual IP address and its virtual MAC address.
- D. The utility IP address and the configured virtual MAC address.

Answer: A

QUESTION: 129

Which one of the following statements is TRUE when H245 tunneling is enabled on the Net-Net 4000. The Net-Net 4000 will _____ .

- A. tunnel signaling messages over the H.245 connection
- B. establish a separate TCP connection to tunnel messages
- C. tunnel H.245 messages over H.225.0 FACILITY messages
- D. support the Generic Tunneling Protocol (GTP) for sending SIP messages over the H.245 connection

Answer: C

QUESTION: 130

The default baud rate for console connections to the Net-Net 4000 is _____ .

- A. 115200
- B. 2400
- C. 9600
- D. 56600

Answer: A

QUESTION: 131

The h245-stage parameter in the H323 stack determines _____ .

- A. The stage at which the Net-Net 4000 will start tunneling H.245 messages
- B. The point in the call where H.245 messages are allowed, given that the call has been connected
- C. The stage at which the Net-Net 4000 will indicate that a separate H.245 connection must be opened or will react to an external indication to open a separate H.245 connection
- D. The point at which H.245 will appear on stage

Answer: C

QUESTION: 132

Which two of the following statements about network interfaces are FALSE?

- A. For each physical interface, you must have at least one network interface with a sub-port-id of 999.
- B. More than one realm can be assigned to a network interface.
- C. By configuring the hip-ip-list and icmp-address parameters, you enable the Net-Net 4000 network processor to respond to PING.
- D. Network interfaces define a subnet of useable addresses, not necessarily the address that signaling and media has to be directed to.

Answer: A, C

QUESTION: 133

You have changed a parameter in the realm-config element and have issued the done command. The change has now been committed to the configuration.

- A. saved
- B. active
- C. edited
- D. running

Answer: C

QUESTION: 134

Which two the following Best Current Practice configuration models would be used to provide complete topology hiding by re-writing the From and To headers of a SIP message?

- A. Policy Based Realm Bridging
- B. SIP-NAT Bridging
- C. Header Manipulation Rule Bridging
- D. Session Agent Bridging

Answer: B, C

QUESTION: 135

To enable the Net-Net 4000 to provide next hop signaling load balancing, which two of the following licenses must be installed?

- A. session agent group

- B. load balancing
- C. routing
- D. local policy

Answer: B, C

QUESTION: 136

Upon issuing the done command, you get an Error 409. What does this error indicate?

- A. The element you are creating is corrupted.
- B. The element you are trying to save doesn't exist.
- C. You are trying to create an element with a unique identifier that already exists.
- D. There is an internal server error.

Answer: C

QUESTION: 137

Examine the output below from the network interface configuration.

```

training1(network-interface)# show
network-interface
    name                m10
    sub-port-id         0
    hostname
    ip-address          164.16.0.9
    pri-utility-addr    164.16.0.10
    sec-utility-addr    164.16.0.11
    netmask             255.255.255.0
    gateway             164.16.0.100
    sec-gateway         164.16.0.101
    gw-heartbeat
        state           enabled
        heartbeat       10
        retry-count     15
        retry-timeout   1
        health-score    50
    dns-ip-primary
    dns-ip-backup1
    dns-ip-backup2
    dns-domain
    hip-ip-list
    ftp-address
    icmp-address
    snmp-address
    telnet-address
    last-modified-date  2006-04-14 19:36:29

```

When the Net-Net 4000 does not get an ARP response from the device configured as its gateway in the configured retry time period, it will _____.

- A. send traffic to the device configured in the sec-gateway field
- B. decrement its health score to 50 which may result in a failover to the standby
- C. use the Virtual Router Redundancy Protocol (VRRP) to determine a new default gateway
- D. use the Virtual Router Redundancy Protocol (VRRP) to the host(s) instead of the primary gateway

Answer: B

QUESTION: 138

In a high availability (HA) scenario, a node has a state of becoming Standby". This state indicates _____.

- A. a transitory state as the active node initially moves to becoming the standby node.
- B. the standby node is out of service.
- C. the standby node is taking the active role.

D. the active node is out of service.

Answer: A

QUESTION: 139

You configure the _____ and _____ elements to use the Net-Net 4000 to perform load balancing between two downstream SIP proxies.

- A. realm steering pool
- B. local policy session agent group
- C. session router session router group
- D. proxy proxy pool

Answer: B

QUESTION: 140

Steering pools are realm specific, and by limiting the number of _____ provide constraints on the number of concurrent RTP sessions allowed on the Net-Net 4000.

- A. UDP ports
- B. slots
- C. IP addresses
- D. Realms

Answer: A

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
