QUESTION 33
HOTSPOT

You are the software architect on a large development project and are entrusted with the task of building a tool chain for continuous architecture evaluation and analysis. Which of the following statements regarding this tool selection are correct/incorrect? (Assign all answers.) **Hot**

Area:

- | correct | incorrect | |
|-----------------------|-----------------------|---|
| <input type="radio"/> | <input type="radio"/> | A) Tools for static code analysis find all dependencies in the source code. |
| <input type="radio"/> | <input type="radio"/> | B) Several tools for static code analysis can be used to verify compliance with architectural rules. |
| <input type="radio"/> | <input type="radio"/> | C) Tools for static code analysis can reliably measure cohesion. |
| <input type="radio"/> | <input type="radio"/> | D) Tools for static code analysis can also be used to optimize runtime efficiency by highlighting dependencies. |
| <input type="radio"/> | <input type="radio"/> | E) Tools for dynamic analysis, such as profilers, cannot be used to optimize static structures. |

Correct Answer:

- | correct | incorrect | |
|----------------------------------|----------------------------------|---|
| <input type="radio"/> | <input checked="" type="radio"/> | A) Tools for static code analysis find all dependencies in the source code. |
| <input checked="" type="radio"/> | <input type="radio"/> | B) Several tools for static code analysis can be used to verify compliance with architectural rules. |
| <input type="radio"/> | <input checked="" type="radio"/> | C) Tools for static code analysis can reliably measure cohesion. |
| <input type="radio"/> | <input checked="" type="radio"/> | D) Tools for static code analysis can also be used to optimize runtime efficiency by highlighting dependencies. |
| <input checked="" type="radio"/> | <input type="radio"/> | E) Tools for dynamic analysis, such as profilers, cannot be used to optimize static structures. |

QUESTION 34
HOTSPOT

Which information is presented in the building-block view? Rate the alternatives below as either true or false. (Assign all answers.)

Hot Area:

Correct Answer:

QUESTION 35

HOTSPOT

In your project, three architects and seven developers are working on the documentation of the software architecture. Which methods are appropriate in order to achieve a consistent and adequate documentation, and which are not? (Assign all answers.) **Hot**

Area:

appropriate	not appropriate	
<input type="radio"/>	<input type="radio"/>	A) The chief architect creates the documentation.
<input type="radio"/>	<input type="radio"/>	B) Identical templates are used for the documentation.
<input type="radio"/>	<input type="radio"/>	C) All parts of the architecture documentation are automatically extracted from the source code.

Correct Answer:

appropriate	not appropriate	
<input checked="" type="radio"/>	<input type="radio"/>	A) The chief architect creates the documentation.
<input type="radio"/>	<input checked="" type="radio"/>	B) Identical templates are used for the documentation.
<input type="radio"/>	<input checked="" type="radio"/>	C) All parts of the architecture documentation are automatically extracted from the source code.

QUESTION 36 What do you have to take into account when designing external interfaces?

(Choose three.)

- A. Volatility of neighbouring systems
- B. Adequate usage of the broker pattern
- C. Protocols enforced by neighbouring systems
- D. Expected amount of parallel calls
- E. Ease of implementation
- F. Effect on the coupling in the building block view

Correct Answer: CEF

QUESTION 37

HOTSPOT

Which of the following statements about the coupling between building blocks are correct? (Assign all answers.)

Hot Area:

Correct Answer:

QUESTION 38
HOTSPOT

You are the software architect of a system that has run for many years and been extended repeatedly. An analysis of the source code has revealed a multitude of dependencies between the classes. Which of the following measures are possible solutions? (Assign all answers.)

Hot Area:

- | true | false | |
|-----------------------|-----------------------|---|
| <input type="radio"/> | <input type="radio"/> | A) The dependencies between classes are the responsibility of the developers. No measures are required within the architecture. |
| <input type="radio"/> | <input type="radio"/> | B) Loosening of direct dependencies between classes through the introduction of interfaces |
| <input type="radio"/> | <input type="radio"/> | C) Loosening of direct dependencies between classes through the introduction of factories |

Correct Answer:

- | true | false | |
|----------------------------------|----------------------------------|---|
| <input type="radio"/> | <input checked="" type="radio"/> | A) The dependencies between classes are the responsibility of the developers. No measures are required within the architecture. |
| <input checked="" type="radio"/> | <input type="radio"/> | B) Loosening of direct dependencies between classes through the introduction of interfaces |
| <input type="radio"/> | <input checked="" type="radio"/> | C) Loosening of direct dependencies between classes through the introduction of factories |

QUESTION 39 Select the two most appropriate methods for evaluating the reliability of a software system. (Choose two.)

- A. Determining the number of 'lines of code'
- B. Measurement of 'Mean-Time-between-Failure'
- C. Execution of performance tests
- D. Determination of the cyclomatic complexity
- E. Conducting an ATAM evaluation

Correct Answer: BC

Explanation

QUESTION 40 What are known patterns for the adaptation of interfaces? (Choose two.)

- A. Bridge

- B. Tower
- C. Observer
- D. Façade
- E. Wall

Correct Answer: AC

Reference: <https://www.cs.fsu.edu/~myers/cop3331/notes/patterns2.html>

QUESTION 41 Which of the following statements about (crosscutting) concepts are most appropriate? (Select four.)

- A. The definition of appropriate concepts ensures the conceptual integrity of the architecture.
- B. Concepts are a means to increase consistency.
- C. For each quality goal there should be an explicitly documented concept.
- D. Uniform exception handling is most easily achieved when architects agree with developers upon a suitable concept prior to implementation.
- E. A concept might be implemented by a single building block.
- F. Uniform usage of concepts reduces coupling between building blocks.
- G. A concept can define constraints for the implementation of many building blocks.

Correct Answer: ABDG

QUESTION 42 Choose the most desirable characteristics of interfaces.
(Choose three.)

- A. Easy to extend
- B. Geared towards the capabilities of the provider
- C. Clear descriptions of assertions and prerequisites
- D. As few parameters as possible
- E. Scalable to many consumers
- F. Remotely callable
- G. Hard to misuse

Correct Answer: BCF

QUESTION 43
HOTSPOT

Concerning external interfaces, Postel's law suggests: "Be conservative in what you do, be liberal in what you accept from others." Assume that Postel's law has been consistently applied in your system. (Assign all answers.) **Hot Area:**

Correct Answer:

Section: (none)

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
