Question: 57

A client has a requirement to render different content on the homepage based on if the customer is logged in or guest user.

What should a developer implement to achieve this requirement?

- A. Write specific custom code in the Content Asset for a customer that is a registered, versus unregistered, user.
- B. Set the Content Slot configuration so it is based on the system customer group registered, versus unregistered.
- C. Set the Content Asset configuration for a customer that is a registered, versus unregistered, user.
- D. Add specific custom messages in Page Designer for a customer that is a registered, versus unregistered, user.

Answer: B

Question: 58

A Digital Developer needs to add logging to the following code:

```
var Logger = require('dw/system/Logger');

var urlEmail = 'https://api.weibo.com/2/account/profile/email.json' + accessTokenSuffix;

http.open('GET', urlEmail);
http.send();

var resultEmail = http.getText();

if (200 !== http.statusCode) {
    // Log Invalid Status Code
}
```

Which statement logs the HTTP status code to a debug-level custom log file?

- A. `logger.getLogger('profile').debug("Error retrieving profile email, Status Code: ", http.statusCode);`
- B. `logger.debug("Error retrieving profile email, Status Code: {0} was returned.", http.statusCode);`
- C. `Logger.getLogger().debug("Error retrieving profile email, Status Code: {0} was returned.", http.statusCode);`
- D. `Logger.getLogger('profile').debug("Error retrieving profile email, Status Code: {0} was returned.", http.statusCode);`

Answer: B

Question: 59

A developer has a sandbox with code to log a message during execution, and the following code:

```
var Logger = require('dw/system/Logger');  
Logger.info(message);
```

After the code executes, the developer does not see any log file with the message in the WebDAV folder.

What could the developer do to correct this issue?

- A. Set the root log level to debug AND check the box for info under Log Files.
- B. Set the logging global preference to true AND set the root log level to debug.
- C. Set the logging global preference to true AND check the box for Info under Log Files

Answer: C

Question: 60

A developer has the following files in template/resources:

account.proierties

weight.unit=kilos

account_en.propierties

weight.unit=stones

account_en_US.propierties

weight.unit= pounds

Using the default locale configuration, what is the current outcome of the page that renders the account.isml template snippet below when visiting the Sofrefront with the English for Canada(en_CA) locale=

Your parcel weighs 10 \${Resource.msg('weight.unit','account')}

- A. Your parcel weighs 10 stones.
- B. Your parcel weighs 10 pounds.
- C. Your parcel weighs 10 undefined.
- D. Your parcel weighs 10 kilos

Answer: A

Question: 61

Assume the code below is executing:

```
var log = Logger.getLogger("xyz", "export");  
log.info("This is important information");
```

Business Manager has the configuration:

Active Log category is “root” with log level of “info.”

Given this information, what is the beginning of the filename in which the log will be written?

- A. xyz
- B. custominfo-blade
- C. custom-export
- D. custom-xyz

Answer: D

Question: 62

The developer has been given the following business requirement:

The shipping method, 'Free Standard Ground Shipping' has an exclusion for products *lth category equals or is child of electronics-televisions.'

The marketing department has scheduled a sale offering a “Free Standard Ground Shipping” method for brand XyzTv televisions for the next 3 months.

What method accomplishes this while following best practices?

- A. Extend the code in cartridge/models/shipping/shippingMethod.js using module, super Module and add an exception for the specified brand.
- B. Extend the CheckoutShippingservices controller using module.superModule and add an exception for the specified brand
- C. Create an allow list for the existing shipping method by adding a product exclusion for 'brand equals XyzTV" to the exclusion list for "Free Standard Ground Shipping."

Answer: C

Question: 63

A developer needs to check for product inventory in all inventory lists using the Open Commerce API.

An example request URL is:

```
http://sitegenesis.demandware.net/dw/data/v18_3/inventory_lists/  
ecom-inventory/product_inventory_records/00883408601
```

Which properly should the developer check in the OCAPI settings to confirm the appropriate resource is enabled?

- A. Client_id
- B. Ecom-inventory
- C. Inventory_list

Answer: B

Question: 64

To ensure SFRA best practices and protect against request forgery, the developer introduced CSRF token generation in the customer address form:

```
<form ... action = "submit">  
  
<input name = "${dw.web.CSRFProtection.getTokenName()}"  
value = "${dw.web.CSRFProtection.generateToken()}">  
  
...  
  
<the rest of the Form fields>  
  
...  
  
</form>
```

To implement CSRF protection when the form is submitted, the developer needs to introduce the CSRF validation using one or both of these methods as applicable:

validateRequest

validateAjaxRequest

Where in the code does the developer need to add this CSRF validation check?

- A. In the controller function that displays the form
- B. In the middleware chain of the controller post route
- C. In the controller function that handles the submitted form
- D. In the model function that persists the form data

Answer: B

Question: 65

A Digital Developer must give users the ability to choose an occasion (holiday, birthday, anniversary, etc.) for which gifts are currently being selected. The data needs to be persistent throughout the current shopping experience.

Which data store variable is appropriate, assuming there is no need to store the selection in any system or custom objects?

- A. Request scope variable
- B. Page scope variable
- C. Session scope variable
- D. Content slot variable

Answer: C

Question: 66

A developer wants to configure multiple products that should only be sold as a group. It should not be possible for

buyers to buy these products individually.

How should the developer configure the products?

- A. Bundle
- B. Set
- C. Variation Group

Answer: A

Question: 67

Business Manager has the configuration:

Active Log category is "root"

Log level of WARN

The code below is executing:

```
var log = Logger.getLogger("products");
```

Using this information, which two logs will be written? Choose 2 answers

- A. `log.warn("This is a warn message");`
- B. `log.error("This is an error message");`
- C. `log.info("This is an info message");`
- D. `log.debug("This is a debug message");`

Answer: A,C

Question: 68

A merchant has a content slot on a page that currently displays products based on the top Sellers for the current week.

They wish to change this functionality and, instead, have the slot render a specific content asset so that the content experience is more personalized to the visitors.

Which two actions are necessary to make this change? Choose 2 answers

- A. Delete the existing content slot and create a new one.
- B. Change the rendering template in the slot configuration
- C. Change the default setting in the slot configuration
- D. Change the content type for the slot configuration

Answer: B,D

Question: 69

Which two methods are efficient and scalable? (Choose two.)

- A. `ProductMgr.queryAllSiteProducts()`

- B. ProductSearchHit.getRepresentedProducts()
- C. ProductSearchModel.getProductSearchHits()
- D. Category.getProducts()

Answer: C,D

Question: 70

A controller route in the SFRA base looks as follows:

```
server.get('Show', consentTracking.consent,  
cache.applyDefaultCache, function (req, res, next) {  
  
    ... base code omitted on purpose ...  
  
    next();  
  
}, pageMetaData.computedPageMetaData);
```

In order to extend this route using prepared (), what should the developer consider?

- A. Specify any middleware functions needed for the new functionality.
- B. Specify any middleware functions needed for the new functionality using only those called by the base route.
- C. Remove next (); on the new route so only the route's middleware functions execute.

Answer: B

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
