Question: 20

Which operator can be used to create a segment for a birthday campaign that is evaluated daily?

- A. Is This Year
- B. Is Anniversary Of
- C. Is Between
- D. Is Birthday

Answer: B

Explanation:

This operator can be used to create a segment for a birthday campaign that is evaluated daily. It compares a date attribute to the current date and returns true if they have the same month and day,

regardless of the year.

Question: 21

What is a unique requirement of a Streaming Insight query?

- A. A dimension
- B. A measurement
- C. A window function
- D. A WHERE clause

Answer: C

Explanation:

A window function is a unique requirement of a Streaming Insight query. It defines the time interval for the query to run on the streaming data and the frequency of the query execution.

Question: 22

Which three options can be used to build a filter in the Segmentation Canvas?

- A. Data Lake Objects
- B. Streaming Insights
- C. Calculated Insights
- D. Related Attributes
- E. Direct Attributes

Answer: A,B,C,E

Explanation:

A window function is a unique requirement of a Streaming Insight query. It defines the time interval for the query to run on the streaming data and the frequency of the query execution.

Question: 23

Which method should an administrator use when performing aggregations in windows of 15 minutes on data collected via the Interactions SDK and Mobile SDK?

- A. Activation
- B. Segment
- C. Streaming Insight
- D. Calculated Insight

Answer: C

Explanation:

This method should be used when performing aggregations in windows of 15 minutes on data collected via the Interactions SDK and Mobile SDK. Streaming Insight allows you to query and aggregate data from real-time streams using window functions.

Question: 24

The leadership team at Cumulus Financial has declared that customers who have deposited more than \$250,000 in the last 5 years and who are not using advisory services, will be the central focus for all new campaigns in the next year.

Which two features support this need?

- A. Calculated Insight
- B. Report
- C. Segment
- D. Dashboard

Answer: A,C

Explanation:

These two features support the need to calculate each customer's lifetime value (LTV) and create breakdowns of the revenue sourced by different channels. Calculated Insight allows you to create complex calculations based on stored data, such as LTV. Segment allows you to create audiences based on different criteria, such as revenue source.

Reference: https://help.salesforce.com/s/articleView?id=sf.c360_a_calculated_insights.htm&type=5

Question: 25

Which feature can integrate in real time with Salesforce CRM?

- A. Data Actions
- B. Identity Resolution
- C. CRM Starter Bundle
- D. Data Model Triggers

Answer: A

Explanation:

This feature can integrate in real time with Salesforce CRM. Data Actions allow you to perform actions on Salesforce CRM records based on Data Cloud data, such as creating, updating, or deleting records.

Reference: https://help.salesforce.com/s/articleView?id=sf.c360_a_data_actions.htm&type=5

Question: 26

Northern Trail Outfitters wants to be able to calculate each customer's lifetime value (LTV) but also create breakdowns of the revenue sourced by website, mobile app, and retail channels.

How should this use case be addressed in Data Cloud?

- A. Nested segments
- B. Flow orchestration
- C. Streaming data transformations
- D. Metrics on metrics

Answer: D

Question: 27

The website team at Cumulus Financial Services wants to understand which identified users have browsed the jobs page on their website at least twice within the last 12 hours.

Which component should a consultant recommend to achieve this goal?

- A. Streaming Insight
- B. Calculated Insight
- C. Streaming Data Transformation
- D. Segment

Answer: A

Explanation:

This component should be recommended to achieve the goal of understanding which identified users have browsed the jobs page on their website at least twice within the last 12 hours. Streaming Insight allows you to query and filter data from real-time streams using window functions and aggregation functions.

Reference: https://help.salesforce.com/s/articleView?id=sf.c360_a_streaming_insights.htm&type=5

Question: 28

What is allowed when editing a Calculated Insight?

- A. Removing existing measures
- B. Adding new measures
- C. Adding new dimensions
- D. Removing existing dimensions

Answer: B

Explanation:

You can add new measures or dimensions to a Calculated Insight by selecting them from the available attributes list

Question: 29

Which three actions can be applied to a previously created segment?

- A. Reactivate
- B. Export
- C. Delete
- D. Copy
- E. Inactivate

Answer: A,B,C,D

Explanation:

These three actions can be applied to a previously created segment. You can export a segment to a CSV file, delete a segment from Data Cloud, or copy a segment to create a duplicate segment with the same criteria.

Reference: https://help.salesforce.com/s/articleView?id=sf.c360_a_segmentation_actions.htm&type=5

Question: 30

What are the two minimum requirements needed when using the Visual Insights Builder to create a Calculated Insight?

- A. WHERE clause is required
- B. At least two objects to join
- C. At least one dimension
- D. At least one measure

Answer: A,C,D

Explanation:

These two requirements are needed when using the Visual Insights Builder to create a Calculated Insight. A dimension is an attribute that can be used to group or filter data, such as product category or customer segment. A measure is an attribute that can be used to perform calculations, such as revenue or quantity.

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
